

HONEST CV

OUR HUMANITY IS THE ONE THING
THAT WE ALL HAVE IN COMMON

WHAT?

Honest CV is a simple but powerful process to describe **who you are** without talking about achievements or diplomas.

We believe that if the world had more CVs like these, humans would be able to better **know, accept and love themselves and each other.**

We want to offer you a **safe space** for you to be frank, to reflect, and to escape the fancy Instagrammer inside you, your employable LinkedIn self, or your busy Facebook wall.

WHY?

We want to connect the mindsets and characters across the room into one same frequency so that teams can **know, work with and approach each other as equals** from a place of respect, admiration and connection.

- It helps to create a **healthy and thriving company culture**
- You can **connect** with those you share a working home with at a more intimate level
- We finally celebrate the workplace as a **gathering of great humans**

We apply Honest CV for **teams working together** or as a connect-interact tool during **events and conferences**.
